PROFILE

I am a skilled and dedicated **UI developer with 5 years** of experience in creating dynamic and responsive web applications, specializing in **HTML5, CSS3, SCSS, and JavaScript**. Proficient in **Bootstrap 3, 4, and 5**, and with **1.5 years of expertise in React.js**. Strong background in delivering pixel-perfect, responsive web designs (**RWD**) and following CSS naming conventions like BEM and Material-UI (**MUI**). Well-versed in version control systems such as **Git** and **Bitbucket**, and experienced with npm package managers. A proactive team player, fast learner, and highly motivated to achieve project success.

WORK EXPERIENCE

Nov 2019 - Present Ahex Technologies Private Limited

Point Of Care(POC)Lite

2023 - Present

- Client** : Bright Spring Health Services, Louisville KY, USA
- Team Size** : 12
- Role** : UI and React Developer
- Technologies** : HTML5, SCSS, Bootstrap, React, JavaScript, Git.

Description : The POC Lite application is undergoing a transformative migration from the Struts framework to a modern and efficient stack, utilizing React. This transition aims to simplify the user experience while enhancing the overall performance and maintainability of the application.
